## Intermediate to Senior AutoCAD/ REVIT MEP BIM Designer

### Exciting and Unique Opportunity

It is remarkable what **Fundy Engineering Employees** have accomplished over the past 30 plus years, **JOIN US!** and help us build and grow for the next 30 years.

Established in 1998 and now many thousands of projects later, our engineering expertise and experience continues to grow. We are providing excellence with the multi-disciplinary engineering and consulting services we provide to the clients we serve, throughout Atlantic Canada, as well as other Canadian and International communities.

**As part of our ongoing growth and success we are pleased to be advertising for a key and critical position of Intermediate to Senior ACAD/REVIT MEP BIM Designer within our Building Systems department. The successful candidate will be responsible for mechanical, electrical and plumbing (MEP) modeling, detailing, sheet set-up and coordination using REVIT MEP, NavisWork and AutoCAD software.**

This comprehensive technical and practical Senior REVIT Designer position lends itself to someone who enjoys overseeing multiple projects from the design stage to the execution stage of priorities. Naturally a major component of this position is establishing excellent communication and rapport with clients, colleagues, contractors, supervisors and other professional disciplines to enable the successful candidate to provide solutions and clarity on all priorities including managing schedules and activities.

Working both in the office and on project job sites you will require significant experience and expertise in the following key areas:

- Proficiency in preparing 2D and 3D drawings using REVIT MEP, AutoCAD and NavisWork software;
- Working as part of a collaborative team developing 3D BIM (Building Information Modeling) and AutoCAD drawings;
- Coordinating work with the MEP design team and other disciplines, including architectural, structural and civil;
- Managing and supporting the creation of new Revit BIM families and content where required as well as modifying existing content while adhering to best practices;
- Setup and manage drawing sets ensuring all drawings and deliverables are reviewed and checked to comply with project and company quality standards;
- Provide quality control for completeness and adherence to company and client drafting standards;
- Coordinate and implement drawing production in line with project requirements and in conjunction with other disciplines; and
- Familiarity and working knowledge of industry/regulatory codes and standards (NBCC, NFC, NPC, CEC).

If you possess a natural and proven ability to grasp sophisticated challenges and an inherent drive to do and be the best, we would appreciate the opportunity to speak with you.

### **Educational Requirements -**

Minimum qualifications to be considered for this opportunity are: A diploma in Mechanical Engineering Technology or equivalent training; six (6) or more years of experience as a REVIT MEP BIM designer. Naturally as part of this lead position at Fundy Engineering, experience and ability in the areas of, organization, communications, leadership, guidance, directing work, decision making and a passion for growth and development, need to be implicit as a natural approach to each day.

### **Software Knowledge –**

A comprehensive knowledge of REVIT MEP, AutoCAD, NavisWork, Dynamo and BIM 360.

### **Remuneration and Benefits -**

Remuneration and benefits are competitive and will reflect candidates' specific level of experience and credentials in

alignment with the requirements, including, a comprehensive health care benefits program, group RRSP pension plan, commitment to specialized training & development, a high level of flexibility and an uncompromised commitment to our employees and their family. Please forward a complete portfolio/resume in confidence to [shari.seeley@fundyeng.com](mailto:shari.seeley@fundyeng.com) before Jan 31, 2022.
